

# EMBC LEADER MASTERMIND GROUP

## FAQ

### WHAT IS A MASTERMIND GROUP?

A mastermind is a facilitated cohort of peers who share a common area of growth or purpose. Mastermind groups open participants up to new perspectives, while also offering more clarity on where their energy should be focused. Designed with resources and tactics to create rapid, lasting change.

### WHO SHOULD JOIN?

This group is for those who are serious about not only finding solutions, but also taking bold action to implement them. Values guiding the group are honesty, confidentiality and active participation

### WHAT IS THE COST?

The standard package is \$2160 and includes all six sessions, plus communication access to peers and coaches in between sessions.

You have the option of adding two, individual 45 minute coaching sessions to the package for a total price of \$2970.

### HOW DOES IT WORK?

You will meet virtually, once a month with your cohort of non-competing, EM leaders to share practical tips and real life experiences. Helping you solve your own challenges more efficiently than on your own.

Gain confidence and clarity from the "hot seat." Each session, you pose an individualized question, the rest of the group provides ideas, experience, suggestions, and resources so that you walk away with a clear action plan in mind. The collective brainstorming provides you with the power and experiences of many minds to give you fresh perspectives and keep you on a forward trajectory.

Between sessions, participants and coaches will connect in a private chat for questions, support, and encouragement. Coaches will be able to take specific technical questions to EMBC SMEs for additional insights and resources.

Each 6-person mastermind group will be facilitated by certified executive coaches who are Emergency Physicians. If you are looking to accelerate your growth, add one on one executive coaching.
